

How to Interpret Scripture in a Post Modern World

Highlights

- How do you take the Word of God that is absolute truth and share it with a generation that doesn't believe in absolute truth?
- Today we have probabilities
- We can use this to speak about Christ to the unsaved:
 - The Bible was the first thing printed on the printing press
 - Only piece of literature copied the most in languages, copies made throughout history = there is something special about this book.
 - Therefore, someone should at least read part of it, Gospel of John is what we would suggest.
 - Ultimate goal is to get people to connect with the Word of God.
- Believers:
 - We have to keep them engaged in the Word of God.
 - Get the student in contact with the Word of God itself. (Ex. Lion will defend itself if made contact)
 - Word Studies are a great tool
 - We want to confront the contradicting theories about truth.
 - Jesus believed in absolute truth. Warned about false teachers: therefore there is a standard of truth.
 - Philippians 1 – “we need to be sincere”
 - John 1:1 “Word”= “Logos (greek)” = Logic, truth
